The required procedures are always performed according to the indication of the respective doctor.

The calculation of other services (performance, material, transport) is based on the point valuation, according to the valid *List of medical procedures with point values*. The point value is determined in accordance with the current Decree on the determination of point values, the amount of reimbursement for covered services and regulatory limitations for the year....

The point value of the performance can be found on the website of the Ministry of Health of the Czech Republic:
